

Job Title: Software Developer

Responsibilities:

- Design, develop, and maintain efficient, reusable, and reliable code.
- Collaborate with cross-functional teams to define, design, and ship new features.
- Write unit and integration tests to ensure software quality.
- Participate in code reviews and provide constructive feedback.
- Troubleshoot, debug and upgrade existing systems.
- Stay up to date with emerging trends and technologies in software development.

Requirements:

- Proficiency in Java, Python, or C#.
- Experience with RESTful API design and development.
- Familiarity with relational databases (MySQL, PostgreSQL).
- Knowledge of version control tools like Git.
- Strong problem-solving skills and attention to detail.
- Excellent communication and teamwork abilities.
